Title: Soulstone of Jurgen

Author: Valiant Kurgan

5-26-03 Cursed by the sins of his past, a noble warrior named Jurgen had the greatest challenge of all laid before him when his brother disappeared. His soul was trapped in the dungeon Wrong, within this soulstone. The minions of the Abyss had captured Eli while he was on an adventure into the famous dungeon.

As Jurgen was once a brave paladin, he felt it was his duty to save the soul of his brother. Once the ritual had been found by Valiant Kurgan, he warned Jurgen of the requirements.

In order for Jurgen to release the soul of his brother, he would have to sacrifice his soul in return.

Jurgen shook as Valiant told him. Without hesitation though, he accepted the fate.

In a ritual performed by Valiant, Jurgen drank a potion containing an ancient necromantic spell long lost in the tomes of

old. The potion caused his soul to separate from his body, and prepared it for transferrance to the stone.

As Valiant chanted, Eli's spirit was ripped from the stone and Jurgen's was plunged within.

Eli was once again mortal and the citizens of Paxlair once again had come to a friend's aid.

Now the stone containing the soul of one of the bravest paladins in all of Sosaria, rests in the Sanctuary. It will remain here until a spell can be found to return Jurgen to this realm.

Beo de fortis proeliator animus!
